

Budget Worksheet

This worksheet will help you evaluate your expenses today, help you determine what your expenses will be in the full-timing lifestyle and help you make a decision if you have enough money or will need to work on the road. The categories listed are typical categories, but may not include all of your expenses, so don't forget to add your unique expenses. Be sure all your dollar amounts are for the same time period, i.e. monthly, quarterly or annual.
